In this way, here you will find industrial products in special conditions for immediate purchases. This transfer switching equipment (TSE) is therefore developed for use in low voltage power systems. Availability: Availability of 05 Unit of 1600a - New use in producer Packaging Information and sales (19) 2111-5943 (19) 2111-5943 (19) 99996-2943 (19) 99996-2922 Transfer switching equipment UL 1008 100 , 200, 260, 400A INITIUM> PRODUCTS> ELE SOCOMECE ATHYS 6E 250A - Motorized transfer keys (Switch switches) REF: SOCOMECE ATYS 6E 250A - Motorized transfer keys View more information Description SOCOMECE ATYS 6E 250A e a, ~ "Motorized transfer key (switching switches) 01 Unit available for delivery prompt, new without use and packaging of the manufacturer. ie, all are new without use. Emergency manual operation. Logo All are in the manufacturer's package. Logic of the Configurable control. Therefore, the item is in accordance with the models: IEC 60947-3 | A 14947-3 | EN 60947-3 | NBN EN 60947-3 | BS EN 60947-3 | GB 14048 | IEC 60947-6-1 | EN 60947-6-1 | NBN EN 60947-6-1 | BS EN 60947-6-1 | VDE 0660-107 in synthesis, here in Indude We have available 01 Unit of 250a. So we have the following basic features: it breaks totally visible. Possibility of electrical control inhibition (ATYS 3E). Similarly, it is also used for open transition transfer applications. Electrical measurements (aty 6e and 6m). 3 stable positions A e a, ~ "I, 0, II), overlapping contacts upon request (I, I + II, II). Ref: AW-0004 Displays more information Description The Motorized SOCOMECE load transfer keys of the line AYSS are designed for 125a applications. They are designed for applications 125a, ie, therefore allow Three-way supplies in remote remote mode Simultaneous automatic. You can even more information on the manufacturer's website: We also have a unit at 1600 for: <https://www.indushop.com/prode/socomec-ATYS-6E-1600A-Transferring-Motorized-Switch-Switch-Switch/> / Indushop - Announcements For Industry and With RGIO. Lock with padlock in position 0 (I and optional II). Auto / Manu selector. This product has an embeable price A e a, ~ "are opportunities in perfect condition for special price. And at the same time two mechanical and electrically locked keys make up the system. Optional communication modules and inputs / leaves (atys 3e and atys 6). Load switching. Monophysical or three-physical control in the I and II networks (ATY 6E and 6M). And integrates control reports, timers and test functions to manage a normal / backup switching operation, between two networks or between a group of generators and a network. Then ATYS 6 (TSE) is dedicated to rupture before making automotive transfer applications. Measure I, P, Q, S and PF (ATYS 6M). With switching of the possibilities of three-way sources in remote or automotive mode and designated to use in low and multi-voltage power systems for open transition applications. Opportunity! Availability: 01 Unit Information and sales available (19) 211 1-5943 (19) 99996-2922 Motor load transfer keys, model ATYS 6E 250A of the SOCOMECE manufacturer. SOCOMECE.
